(b) Yes, Sir.

(c) and (d) The rate of construction as given at col. C are excluding the facilities whereas the rates charged from handloom agencies as given at col. D are including facilities. The reasons of difference in construction rates of State Pavillions and rent recovery from handloom agencies are on account of following facilities:

Provision of office, fire-fighting, space for Bank & Post Office, space for Police Post, provisions for main power connection, Fire-Aid, Switch Boards, DG Set, bathrooms, toilets and other public conveniences, provision of water security, telephones, Public Address System, General lighting, boundary wall, holding inauguration and closing functions, provisions of gates, maintenance & upkeep of the place as per requirements indicated in standard tender schedule, publicity expenses, ground-rent, organisation and establishment cost, payment of statutory fees, etc.

(e) The reasons for such difference are unavoidable. Rates differ from one State to another. Also in certain States higher ground rent depending upon the location of exhibition ground has to be paid. As such, standard rates cannot be fixed up by the Ministry.

Textile Mills run by NTC in Gujarat

2172. SHRI ANANTRAY DEVSHANKER DAVE: Will the Minister of TEXTILES be pleased to state:

(a) what is the number of textile mills in Gujarat being run by the NTC together with the names and the location thereof;

(b) what is the total number of textile mills being run in the private sector together with the names and the location thereof;

(c) what is the actual production and capacity of NTC and private mills separately at present;

(d) whether the production and capacity of NTC mills is lower than the private sector mills;

(e) if so, what are the reasons therefor; and

(f) whether any proposal for modernisation of these mills is under consideration of the Government, if so, what is the proposal and what action is being taken thereon?

THE MINISTER OF STATE IN THE MINISTRY OF TEXTILES (SHRI G. VENKAT SWAMY): (a) and (b) The

NTC has under it 12 mills in the State of Gujarat, while as in October, 94 there were 90 cotton/manmade textile mills in Gujarat under the private management. A list of these mills alongwith details of their location is in the enclosed Statement (*See* below).

(c) to (e) The 12 mills under NTC have a capacity of 2,98,656 spindles and 5973 looms as on 30-6-94, while the private sector mills have an installed capacity of 30,27,722 spindles, 14944 rotors and 33968 looms.

In the NTC mills, there has been virtually no production for the last about 2 years. The production in the mills under private sector in 1993-94 was 15,64.93,000 kgs. of yarn and 39,93,53,000 sq. mtrs. of cloth. The lower capacity and lack of production in the NTC mills is due to the fact that NTC has been facing an acute shortage of working capital, besides other factors such as obsolete machinery, high man-machine ratio, high cost of raw materials etc.

(f) The Textile Research Associations have prepared modernisation plans for the NTC mills including those of NTC (Gujarat) Ltd. The proposals for revival of the NTC are being examined in Government and no decision has been taken so far. In view of the fact that the cases of 8 out of 9 subsidiaries of NTC including NTC (Gujarat) Ltd. stand referred to the BIFR, any final plan that may emerge would require the approval of the BIFR before implementation.
